 search

This diagram represents an overview of the animateonline site, pages are ordered according to their depth in the system. This is not intended to represent user experience, and language used is not final.

A note regarding search: every page will have a basic one-field search feature. Results will be delivered through the browse template. Searches prefixed with a type (film for example) and *adv search* are the same. When the prefix indicates that some fields and parameters and fields will be determined upon arrival at the *adv search* page. These predefined parameters are not fixed.

Wireframes are yet to be specified. Templates indicate content but are not intended to specify layout. Subdomains yet to be specified, pending hosting arrangements.

Information written white on black represents function, in that it requires the user to perform an operation, like *submit*. Information written black on pink represents open text fields that require user input. Black type on orange will open up a *new mail* in the users mailing software with an address appropriate to the origin of the operation, *press@animateonline.org* for example. 'M' marks functions or areas that may only be operated by someone with moderator privileges. 'S' marks functions or areas that may only be operated by someone who has subscribed.

The following is a more explicit description of some key pages, there is also some initial thoughts on how entries might be searched.

Subscribe page

Updating information
 Users are able to submit entries to be included in the database. This service is available only to users who have subscribed. A user attempting to access any functionality which requires subscriber privileges will be directed to the subscribe page, and returned to their origin upon completion.

The numbers refer to their counterparts on the map:

- 1 user chooses fields to update, enters content and defines parameters
- 2 user submits updates
- 3 forwarded to a hidden part of the database
- 4 user submissions are checked and confirmed by an animate! moderator
- 5 upon confirmation, material is switched to public facing, and is imported into the correct template and directed to the appropriate area in the database

Information page
 Content: Detailed information about contacting animate!, links of contributors, publication of the animate! xml dtds for other organisations. a general space for dialogue concerned with the workings of the site. Link to 'link to animate!' on press page and explanation.
